

**UNIVERSITY OF OSLO**  
**The Faculty of Mathematics and Natural Sciences**

**Per Thomas Hille**

born 1972-07-14, obtained the degree of

**Philosophiae Doctor (Ph.D.)**

in the Spring semester of 2009.

Department: **Department of Physics**

Specialization field: **Nuclear physics**

Date of trial lecture: **2009-05-22**

Title of trial lecture: **Probing Hot and Dense Partonic Matter by Using Photon Measurements**

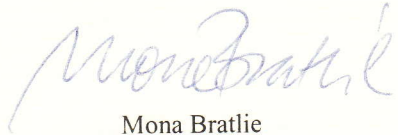

Date of disputation: **2009-05-22**

Title of dissertation: **Commissioning of the ALICE PH OS Detector and Integration into the ALICE High Level Trigger**

| Courses forming the theoretical curriculum | ECTS credits | Semester | Year |
|--------------------------------------------|--------------|----------|------|
| FYS4550 Experimental High Energy Physics   | 10           | Autumn   | 2005 |
| FYS9061SP Special Syllabus, Physics        | 6            | Autumn   | 2005 |
| FYS9041SP Special Syllabus, Physics        | 4            | Autumn   | 2006 |
| INF9400 Statistical Signal Processing      | 10           | Autumn   | 2006 |

On behalf of the Senate and based on the report from the adjudication committee and the Faculty, rector has conferred the doctoral degree *Philosophiae Doctor* on **Per Thomas Hille** the 17<sup>th</sup> of September 2009.
